TBPA Mission Statement

The mission of the Tennessee Backflow Prevention Association is to protect drinking water quality in the State of Tennessee by providing for education, statewide training, standardized certification, technical assistance and resources to our membership and the general public.

President's Message

Hello. Most of you will recognize my name; you just aren't used to hearing from me here! Believe me; it is strange for me as well! I have been on the TBPA Board for many years and a lot of you are already old friends, so an affectionate "Hello", it is. And to those of you just joining us or returning; well the old saying goes "One is silver, the other gold"... both are special so a very warm "Hello" to you also.

Our next TBPA Board meeting is just around the corner and I want to take the time to personally invite (plead) all of you to attend and be active in the association. We are always looking for committee members and fresh ideas.

NEW TBPA CONTEST

This year TBPA will hold a contest for our membership. I want to hear from each and every one of you, your best day on the job and/or your worst day. Send them to me at angel.goike@cityofclarksville.com or fax to 931-553-2490. The winning response will be presented at the Annual Conference in October and a prize will be awarded.

Everyone, please join us at the Annual Conference in Murfreesboro at the Doubletree Hotel to hear the stories of your friends and colleagues. What a wonderful way to share our experiences and connect with our fellow members.

I would also like to encourage any of you who are able to attend the ABPA National Conference in New Orleans, May 17-19, 2010.

I hope to see all of you soon, at a Board meeting, the TBPA Conference or the ABPA Conference. Please remember that I am always open to hear from our membership, by phone, fax or email. Here's to a great year!

Angel Goike
President TBPA
